## Our products

... a true ASSET for everyday kitchen use

## Frozen foods, freshness in stock

Frozen foods are an ideal solution for everyday kitchen use. Many professional chefs rely on convenience and prefer high-quality, ready-to-cook or ready-toeat frozen products. There are many cases arguing in favour of frozen foods:

## Quality

Strict quality controls and standardised production processes ensure a uniform high quality: hygienic protection against microorganisms is ensured through freezing at at least $-18^{\circ} \mathrm{C}$ (HACCP).

## Availability

Due to the freezing process the products have a long shelf life (between 6 and 12 months), making them available to chefs for their creative cuisines throughout the whole year.

Portionability and cost-efficiency Thanks to the modern IQF method, each individual piece is frozen separately, enabling
better portioning. Chefs can process the quantities they need - an absolute price advantage thanks to simple and exact portioning.

Frozen meat products offer a wide range of benefits in professional kitchens. They meet the highest hygienic requirements, simplify general handling, reduce costs and save you valuable time in your kitchen. With our Foodworks products, our customers can rely on tested quality and a range that is guaran teed to meet their needs.

## Beef, unseasoned | raw

... for individualists

Full meat flavour for custom seasoning

We give you the patty, you do the rest, no matter where the culinary journey leads. Our unseasoned burgers are clean label products, because they are made of pure beef. As products of nature made of pure beef, our unseasoned burgers are clean label products. In addition, the beef originates from and is processed exclusively within the EU and UK.

## Info

## Angus

Originating from the Angus region of north-east Scotland, this meat stemming from one of the most robust hornless cattle forms the foundation for our Angus Burger.

Mild island climate of Great Britain and Irland allows for this cattle breed to be pasture-fed virtually all year round (Irish CAB - Certified Angus Beef). Gentle rearing and lush, fresh grass as well as the absence of all feed additives give their meat a flavour beyond comparison.
